APPLICATION FOR ACCEPTANCE OF DIRT ROAD INTO THE COUNTY SYSTEM

The undersigned property owners request that Columbia County accept _____ as a county road. As evidence by my signature below, I testify that I have read and understand the policy for conversion of a private road to a public road.

POLICY FOR CONVERSION OF PRIVATE ROADS TO PUBLIC ROADS:

- o Road must have been in existence prior to January 1, 1989, and removed from the maintenance route by the Board of Commission at that time.
- o Road must have been maintained by County Forces prior to January 1, 1989.
- o Property owners must be willing to donate adequate right of way, as determined by the County, for future paving of the road. Right of way may vary from 50 to 80 feet, depending on the topography of the area and other factors.
- o Property in the right of way must be deeded to the County at the owner's expense and accepted by the County Commission.
- o Formal application must be requested from the Office of the County Engineer. Completed applications should be returned to the Engineering Office for further handling.
- o The Property Owners shall participate in the initial cost of bringing the road up to county standards. County standards shall be defined as "the condition in which the road was in during the time the County maintained the road, as testified by the County Roads & Bridges Manager".
- o The Board of Commissioners will make the final decision on acceptance of the road into the county system.
